Full-Stack Web Developer

Enjoy working with like-minded developers utilizing a variety of development languages and tools. Open to Full-time opportunities in Web Development.

I am a front-end web developer having high experience in HTML, CSS, JavaScript, DOM, WEB API, ExpressJS.

I'm a web development Nanodegree certified from challenger and professional track from Udacity.

I already have some projects I created with udacity and others on this link =>

<https://nfx5xxoo04uwdogdeljwg.on.drv.tw/Me 2/>

Skills

- | | | |
|--------|---------------------|---------|
| - HTML | - Javascript | - PHP |
| - CSS | - node js ExpressJs | - mysql |

EXPERIENCE

I have two projects I created for the Udacity course Front End Web Development Professional Nanodegree Program.

The two projects I created during the learning course earned me a lot of experience to make me create beautiful websites like them or nicer than them.

All my works will be found on this link:
